

## Acoustic Consultant (Senior)

ALLEGRO ACOUSTICS, DUBLIN, REPUBLIC OF IRELAND

Employment basis: €Competitive, Expenses, Gym Membership, Permanent with 6month probationary period

Allegro Acoustics is an acoustic design consultancy based in Dublin, Republic of Ireland. We are currently working on an extensive portfolio of signature design and build projects within the Performing Arts, Cultural, Music, Education and Civic fields. Allegro Acoustics is primarily focused on large capital projects (€50m - €500m) and is looking to recruit a Senior Acoustic Consultant to work and develop within this growing project portfolio.

The successful candidate will have a Bachelors Degree in Engineering and a post graduate qualification in Acoustics. The successful candidate will demonstrate the following:

- In excess of five years experience working as an Acoustic Consultant in the consultancy environment, particularly in the field of architectural acoustic design;
- Experience working as Lead Acoustic Consultant for large scale (>€50m) building projects for which acoustic design and performance is critical;
- Experience in the tender, design, construction and commissioning phases for building projects to include acoustic specification, design and the compilation of the acoustic design chapters for tender;
- Experience working with multi-disciplinary design teams and tendering consortia for new building projects;
- Management experience to include directing and reviewing junior personnel for the completion of site surveys, monitoring, model building, reporting and other typical Junior Acoustic Consultant responsibilities;
- Excellent report writing skills and attention to detail are essential for this role;
- This role will require the successful candidate to hold a full drivers license and have his or her own mode of vehicular transport. Use of one's own private vehicle will be remunerated in line with guidance set out by the Revenue Commissioners relating to Personnel Expenses;
- The successful candidate will receive continued in-house and external training for all aspects of this role to include technical and managerial training. Allegro Acoustics promotes continued professional development including in-house and external training to enable personnel to reach their full potential as Engineers at all levels;
- Office hours – 9am to 5:30pm Monday to Thursday, finish at 3:30pm on Friday.

This is a client facing role, and hence a professional approach and good communication skills are essential. Candidates who present themselves well when interacting with clients and colleagues will be considered to be particularly well suited to this role.

If this role is of interest to you, please forward your CV to [david@allegroacoustics.ie](mailto:david@allegroacoustics.ie).
