

Acoustic Consultant (Graduate)

ALLEGRO ACOUSTICS, DUBLIN, REPUBLIC OF IRELAND

Employment basis: €25k - €30k base salary plus expenses, Gym Membership, Health Insurance, Defined Contribution Company Pension, Permanent with 6 month probationary period

Allegro Acoustics is an acoustic design consultancy based in Dublin, Republic of Ireland. We work with leading Architects and Engineers on signature building projects throughout Ireland, United Kingdom, USA, South America and Middle East. Allegro Acoustics is primarily focused on a mix of bespoke design projects and larger capital projects (€20m - €500m). The successful candidate will be joining Allegro Acoustics at a time where personnel have the opportunity to become instrumental to the development of the company and team going forward.

At the heart of our success lies a young and vibrant team where mutual respect and a progressive approach are fundamental values to our MO! We enjoy our work and never miss an opportunity to have fun along the way! We would welcome someone to join this team at graduate level who shares these values.

About the Candidate

The successful candidate will have a Bachelors Degree in Engineering or Audio Technology and a keen interest in the field of acoustics and audio.

About the Role

This role will typically include the following:

- Environmental noise monitoring and acoustic testing at client sites around the Republic of Ireland and UK;
- Development of 3D models for spaces which include music venues, music, radio and television studios, drama performance spaces, educational facilities, hotels and leisure facilities;
- Report writing for assessments completed;
- Excellent report writing skills and attention to detail are essential for this role.
- This role will require the successful candidate to hold a full drivers license and have his or her own mode of vehicular transport. Use of one's own private vehicle will be remunerated according to the maximum allowable rates as outlined by Revenue Commissioners for Personnel Expenses;
- The successful candidate will receive in-house and external training for all aspects of this role. Allegro Acoustics promotes continued professional development including in-house and external training on a continued basis to enable personnel to reach their full potential as Engineers at all levels;
- Allegro Acoustics provides it's staff with full remote working facilities to enable a seamless transition between working from the office or from home. For home working, this includes the provision of an ergonomic design office chair, laptop, flatscreen monitor, wireless audio devices and docking station with mouse & keyboard;
- Normal working hours – 9am to 5:30pm Monday to Thursday, finish at 3:30pm on Friday.

This is a client facing role, and hence a professional approach and good communication skills are essential. Candidates who present themselves well when interacting with clients and colleagues will be considered to be particularly well suited to this role.

If this role is of interest to you, please forward your CV to recruitment@allegroacoustics.ie.
